

TELEPHONE AND ADDRESS DIRECTORY

The purpose of this directory is to provide a telephone and address list of the organizations and agencies that provide services and /or support to people in Montana with developmental disabilities. The directory is limited in scope by being a telephone and address directory: it is suggested that you contact the individual organization for specific information on the services they offer.

DEVELOPMENTAL DISABILITIES DEFINITION

Developmental disabilities affect many Montanans. Mental retardation, autism, cerebral palsy, and epilepsy are some conditions commonly referred to as developmental disabilities. The definition of "developmental disabilities" as legislatively defined in section 53-20-202 of the Montana Codes Annotated (MCA) is:

'Developmental disabilities' means disabilities attributable to mental retardation, cerebral palsy, epilepsy, autism, or any other neurologically disabling condition closely related to mental retardation and requiring treatment similar to that required by mentally retarded individuals if the disability originated before the person attained age 18, has continued or can be expected to continue indefinitely, and results in the person having a substantial disability.'
